Glorious Gifting

A whole new range of products carved in Copper & Stainless Steel
Company Profile

Signoraware took the first steps of its long journey with the foundation of Signora Appliances in the year 1981 with a dream of making quality & affordable kitchenware and appliances for the Indian masses. Around four decades later, Signoraware is now an industry leader with an innovative product range in Kitchen Appliances, Serveware, Tableware, Bakeware, Lunch and Outdoor range, Crockery, and Food Storage solutions. The brand runs under the umbrella of M/s Techno plastic industries, Signora group of companies.

The mantra that has sustained the growth of Signoraware over four decades, is its constant evolution with time. All our products are manufactured using tirelessly updated state-of-the-art technology and highly sophisticated machinery with the use of superior quality, Food Grade European raw materials. We have always laid utmost importance to providing high quality, durable and user-friendly designs at affordable prices to our consumers.

Signoraware boasts a complete kitchen range with a product range encompassing over 350 BPA Free Virgin Plastic products, around 360 Stainless Steel products, 80 plus Borosilicate Glass products and over 40 Pure Copper Products. Signoraware is a national favorite in its category and is rapidly expanding its wings globally. It has withstood the challenges posed by home grown as well as international brands and has retained its standing not just within the country but beyond too, gaining huge popularity around the globe. Other than B2C, Signoraware also has tie-ups with multiple Corporate clients.

Signoraware Group has vast experience in the category of kitchen appliances as well. Signora Appliances was founded by Shri Y. K. Bansal, an electrical engineer who decided to follow his passion. Signora Appliances has been manufacturing and marketing Food Processors, Mixer Grinders, Juicers, Microwave Ovens, Choppers, Toasters, Steam Irons, Ceiling Fans, Heat Pillars, Induction Cookers, RO Systems, etc.

Salient features of the company:

- An ISO 9001 Certified Company
- Well-equipped Research and Development department with an adroit technical team
- Huge infrastructure with Warehouse capacity of over 5,50,00 sq.ft.
- Modern Tool Room facilities with latest C.N.C. machines and CAD/CAM software
- Our quality is at par with any international brand in the category
- Highly professional Marketing Team headed and guided by the young and dynamic second generation entrepreneurs of the family
- High-quality European Food Grade raw materials
- Designed for the best user experiences

Signoraware derives its motivation for keeping going by providing the best of products, quality and services to its customers. It aims for enriching customer satisfaction through design evolution and revels in the joy it brings to millions of customers in India and abroad.

How to take care of Signoraware products:
Signoraware products are tested and trusted for the best usage in the kitchen, home and outdoors. With a little care, you can keep these attractive durable storage products looking as fresh as new.

Maintenance of Signoraware products:
For cleaning and storage, wash and rinse Signoraware products with liquid soap and lukewarm water. Store the material without seal to keep them fresh.

Removing stains: Use baking soda paste on stains for reducing stains and stickiness.

How to use containers and seals:
Cool beverages before handling or applying the seal. Bring hot food or liquid to room temperature containing fat (cooking oil, curries or sauces) before placing them in containers.

Use for liquid items:
Products with round seal are leak-proof and can be kept in any position. Keep containers with other types of seals in upright position.

Preventing cuts and scratches:
Do not use sharp scrubbers or dry detergents or low quality detergents.

Hot Food and Beverages:
Cool all hot food items before storing in the containers to retain their food value.

Removing unpleasant odours:
Keep a piece of charcoal or stuff a moist newspaper in the container and leave it sealed for more than 12 hours in the fridge. Wash and rinse the product thoroughly. Sometimes keeping in sunlight for a short span can be useful in getting rid of unpleasant odours.

HOW TO USE AIRTIGHT/LEAK-PROOF SEAL

ROUND LEAK PROOF SEAL
• To seal, place seal groove over rim of the container. Lift one edge and press the center to expel air. Press back tightly by pressing with thumb around it.
• To open, lift seal at one corner and pull gently.

TUMBLER-ROUND LEAK-PROOF SEAL
• To seal, press seal groove over rim of the tumbler. Lift one edge and press center to expel air. Press back tightly.
• To open, lift seal at one corner and pull gently.
