How to take care of SignoraWare products: SignoraWare products are tested and trusted for the best usage in the kitchen, home and outdoors. With a little care, you can keep these attractive durable storage products looking as fresh as new.

Maintenance of SignoraWare products: For cleaning and storage, wash and rinse SignoraWare products with liquid soap and lukewarm water. Store the material without seal to keep them fresh.

Removing stains: Use baking soda paste on stains for reducing stains and stickiness.

How to use containers and seals: Cool beverages before handling or applying the seal. Bring hot food or liquid to room temperature containing fat (cooking oil, curries or sauces) before placing them in containers.

Use for liquid items: Products with round seal are leak-proof and can be kept in any position. Keep containers with other types of seals in upright position.

Preventing cuts and scratches: Do not use sharp scrubbers or dry detergents or low quality detergents.

Hot Food and Beverages: Cool all hot food items before storing in the containers to retain their food value.

Removing unpleasant odours:
Keep a piece of charcoal or stuff a moist newspaper in the container and leave it sealed for more than 12 hours in the fridge. Wash and rinse the product thoroughly. Sometimes keeping in sunlight for a short span can be useful in getting rid of unpleasant odours.
